

WOOD PLANK

collection	species
PARC MONCEAU	FRENCH OAK
SORBIER	
item	

THICKNESS	WIDTH	SURFACE FINISH
5/8 TH	7"-1/2	OIL

TEXTURE	TENON	BEVELED	WEAR LAYER
BRUSHED	T&G	MICRO BEVEL	4MM

ACCLIMATION

The wood floor needs to be acclimated on site for 7 - 14 days depending upon the moisture content of the planks, subfloor and the environment it will be performing in. ■ See the installation manual for more details.

INSTALLATION & MAINTENANCE

After installation, it is recommended to apply natural maintenance oil. For oil floors clean with soap and water. Regular maintenance should be done by alternating between maintenance colored oil [same as wood color] and natural maintenance oil. ■ See the installation manual for more details.
